for membership because of the fact that he was the president of the army board which decided to raise the Maine by means of a cofferdam. He is senior engineer officer in charge of the work of raising and removing the Maine from Havana Harbor.

In accordance with legislation passed several years ago, about \$20,000 has already been spent in raising the Maine. A large cofferdam has been constructed around the vessel and the mud cleared away. During the last few weeks no work has been done until the hurricane season passed. All danger of an accident of this sort is now over, and the army engineers are ready to remove all the water from the cofferdam and disclose the hulk of the Maine for the investigation of the board.

# UTILITIES BOARD MEANS TRANSFERS

Commissioners Concur in Federation's Belief.

The Commissioners yesterday announced their concurrence in the belief of the Federation of Citizens' Associations that the quickest and surest way to obtain universal transfers in the District is to have Congress at the coming season pass a bill providing for the creation of a public utilities commission; the District. The Commissioners say that if the commission is created and they are made the members, there will be no delay in the inauguration of the reciprocal transfer question.

At its first meeting this season the Federation of Citizens' Associations passed a resolution urging the passage of a public utilities commission in the District. There is some question, how-

made at the coming session of Congress to obtain the passage of a bill providing a for such a commission.

The Commissioners yesterday presented their views after granting the temporary conference for the consideration of the question of universal transfers a hearing at 10 o'clock, in the District Ruiding. After fixing the date, Commissioner Rudolph said that he did not see the object of the hearing, as the Commissioners at present were unanimously in favor of reciprocal transfers, and for some time had been leading their efforts toward obtaining legislation in that direction. Next Tuesday morning, however, the officials of the conference will explain to the Commissioners that they want them to indorse the bill which has just been drafted by a subcommittee of the conference will explain to the conference will explain to the conference will explain to the conference of the commissioners to indorse the bill, so that it would silege the minimum is the question we are drafted by a subcommittee of the commissioners to indorse the bill, so that it would silege the minimum is the question we are drafted by a subcommittee of the commissioners to indorse the bill, so that it would silege the minimum is the question we are drafted by a subcommittee of the commissioners to indorse the bill, so that it would silege the minimum is the question we are the form the price of the commissioners to indorse the bill, so that it would silege the minimum is the question we are the followed the price of the commissioners to indorse the bill, so that it would silege the minimum is the question we are the followed the price of the commissioners to indorse the bill, so the price of the commissioners to indorse the bill, so the price of the commissioners to indorse the bill, so that it would silege the minimum is the question we are the followed the price of the commissioners of the commission
